WELCOME TO THE TAROT

The tarot is a deck of 78 illustrated cards used for reflection, guidance and prediction. Each card is a symbol — a doorway into a story about your life, your choices and the energies around you.

This book walks through every card of the traditional Rider-Waite deck. For each card you will find its image, astrological correspondence, upright and reversed keywords, and a set of predictions drawn from the AstroUnikon tarot engine: a Yes/No oracle for every card and — for the 22 Major Arcana — an in-depth love reading, a career reading with suited career paths, and a daily reading covering health, relationships, career and finance.

HOW THE DECK IS BUILT

22

MAJOR ARCANA

The great life lessons — from The Fool's first step to The World's completion.
When a Major card appears, the matter is significant and fated.

56

MINOR ARCANA

Everyday situations in four suits of fourteen cards: Ace to Ten, plus four Court cards — Page, Knight, Queen and King.

THE FOUR SUITS

SUIT	ELEMENT	ZODIAC SIGNS	GOVERNS
Wands	Fire	Aries · Leo · Sagittarius	passion, energy, creativity, ambition and drive
Cups	Water	Cancer · Scorpio · Pisces	emotions, relationships, love and intuition
Swords	Air	Gemini · Libra · Aquarius	intellect, truth, conflict and decisions
Pentacles	Earth	Taurus · Virgo · Capricorn	work, money, health and the material world

WHAT THE NUMBERS MEAN

Ace beginnings	Two balance, choice	Three growth	Four stability
Five conflict	Six harmony	Seven assessment	Eight movement
Nine near completion	Ten culmination	Page messages, study	Knight action
Queen nurturing mastery		King authority and control	

HOW TO READ THE CARDS

1. **Set your intention.** Sit quietly and frame an open question: *"What do I need to know about my career this month?"* works better than *"Will I get rich?"*
2. **Shuffle.** Shuffle while holding the question in mind. Stop when it feels right, then cut the deck.
3. **Lay the spread.** Draw cards face down into the positions of your chosen spread (see next page).
4. **Turn and observe.** Notice the images and your first impression before looking up any meaning.
5. **Upright or reversed.** An upright card expresses its energy openly. A reversed (upside-down) card shows that energy blocked, delayed or turned inward.
6. **Read the story.** Combine the cards. Many Major Arcana suggest big life themes; many cards of one suit point to that suit's area of life.

USING THE YES/NO ORACLE

Ask a clear yes-or-no question and draw one card. Turn to that card's prediction page and read its verdict — **YES** **NO** **MAYBE** — along with the explanation beneath it. If the card lands reversed, soften the answer: a Yes becomes "not yet", and the reversed meaning on the card's face page shows what stands in the way.

READING TIPS

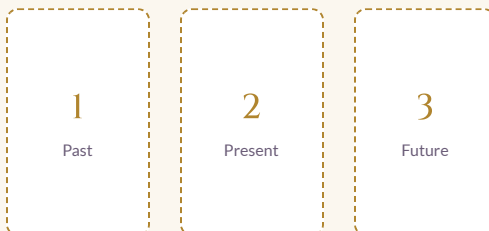

- Keep a tarot journal — patterns reveal themselves over weeks.
- Court cards often represent people in your life, or a role you are being asked to play.
- Do not repeat the same question straight away; let the first answer settle.
- The cards describe likely directions, not fixed fate. Your choices shape the outcome.
